

# Buyer Personas for RevEnabled

## 1. The Scrappy SaaS Founder

(ICP 1 – Venture-Backed SaaS Startups, Seed → Series B | Essentials Fit)

**Title / Role(s):** Founder/CEO, Head of Growth, RevOps Lead (early stage)

**Department / Function:** Leadership, GTM, Sales Ops (nascent)

**Company Profile:**

- B2B SaaS (AI, HRTech, MarTech, FinTech, Productivity)
- 10–150 employees | \$1M–\$20M ARR
- Based in NA/EU (English-first markets)

**Key Goals / KPIs:**

- Hit aggressive pipeline targets to unlock next round of funding
- Shorten sales cycle with better assets + playbooks
- Build a repeatable outbound motion that doesn't depend on the founder
- Achieve 20–30%+ reply rates with steady meeting flow

**Daily Responsibilities / Workflow Context:**

- Balancing fundraising, product roadmap, and early GTM
- Overseeing first AE/SDR hires
- Testing outbound messaging while juggling investor pressure

**Pain Points & Challenges:**

- No dedicated outbound team, founder or junior SDRs doing outreach

- CRM either missing or underutilized (HubSpot/Pipedrive)
- Messaging unproven, ICP not crystalized
- Pressure from investors to show pipeline predictability

**Buying Triggers:**

- Just raised funding round
- Hiring first/second sales rep
- Missed last quarter's pipeline targets
- Considering CRM revamp/migration

**Objections & Risks:**

- Skepticism that an external partner won't "get" their product
- Early-stage budget sensitivity
- Desire to "build in-house"

**Preferred Channels / Tone:**

- Founder-to-founder tone, LinkedIn + Email
- Conversational, ROI-focused messaging
- Case studies from similar-stage SaaS

**Decision Role:** Founder = Champion + Decision-maker

**Buying Behavior:** Fast, decisive buyers when they see founder credibility and fast ROI

---

## **2. The Pipeline-Plateaued Sales Leader**

(ICP 2 – Mid-Market Services Firms | Professional Fit)

**Title / Role(s):** CRO, VP of Sales, Head of Biz Dev, COO

**Department / Function:** Sales, Business Development, Operations

**Company Profile:**

- Professional Services, IT Consulting, Marketing Agencies
- 50–500 employees | \$10M–\$50M revenue
- NA/UK/Canada/ANZ

**Key Goals / KPIs:**

- Diversify pipeline beyond referrals/inbound
- Reduce SDR cost per meeting booked
- Strengthen win rates with assets + playbooks
- Gain visibility into pipeline health and forecast accuracy

**Daily Responsibilities / Workflow Context:**

- Managing SDR/BDR teams, often with high turnover
- Reviewing pipeline forecasts and campaign ROI
- Coordinating outbound strategy across verticals

**Pain Points & Challenges:**

- Over-reliance on referrals, leading to lumpy pipeline
- Existing SDRs underperform, costly churn
- CRM chaos: poor reporting, incomplete data
- Limited personalization in outreach → low reply rates
- Long sales cycles without progression

**Buying Triggers:**

- Plateaued growth from referrals
- New vertical or geo expansion
- New head of sales pushing outbound
- Missed revenue targets 2+ quarters

**Objections & Risks:**

- Doubt around outbound lead quality
- Preference for inbound-heavy GTM
- IT/security concerns with domain setup

**Preferred Channels / Tone:**

- Email + Phone sequences
- Professional, authoritative tone
- ROI framing: cost per SDR vs. cost of RevEnabled

**Decision Role:** CRO/COO = Final decision-maker; VP Sales often champion

**Buying Behavior:** Want proven frameworks + predictable ROI before scaling commitment

---

### 3. The Scale-Minded RevOps Leader

(ICP 3 – Growth-Stage Scaleups, Series C+ / Pre-IPO | Enterprise Fit)

**Title / Role(s):** VP Sales Ops, RevOps Director, GTM Systems Leader

**Department / Function:** Revenue Operations, GTM Systems, Sales Enablement

**Company Profile:**

- SaaS / Tech-enabled B2B Services
- 200–2,000 employees | \$50M–\$500M ARR

- NA + EMEA

**Key Goals / KPIs:**

- Standardize outbound globally across regions/teams
- Improve SDR productivity (meetings booked/rep/month)
- Scale automation while preserving personalization
- Mature RevOps → reporting clarity & predictability

**Daily Responsibilities / Workflow Context:**

- Overseeing GTM systems across global orgs
- Consolidating CRM/automation stack
- Managing enablement content + process rollouts
- Preparing exec team for IPO-level efficiency

**Pain Points & Challenges:**

- Inconsistent outbound execution across teams
- Tech stack complexity (multiple CRMs/tools)
- Scattered enablement across departments
- Underperforming reps due to lack of unified playbooks

**Buying Triggers:**

- Expanding into international markets
- IPO or acquisition prep
- SDR performance plateauing
- Desire to consolidate RevOps stack

**Objections & Risks:**

- Preference to build/keep in-house
- Concerns about integration complexity
- Fear RevEnabled is “too startup-focused”

**Preferred Channels / Tone:**

- Strategic workshops, thought leadership, LinkedIn/email nurturing
- Data-driven proof points, scalability framing
- Executive-level messaging (governance, ROI at scale)

**Decision Role:** VP/Director RevOps = Champion; CRO often final sign-off

**Buying Behavior:** Longer cycle, enterprise diligence, need for scalability proof
