

Sales Operations

Setup Guide

RevEnabled | revenabled.com

A Sales Automation Agency

Overview

The purpose of this guide is to direct any owner, executive, or team member of an organization on how to set up and implement a sales operations strategy and technical stack to empower revenue enablement.

Process

The steps involved

1. Create Sales Playbook
2. Draft Sales Messaging
3. Generate Prospect Data
4. Configure Email DNS
5. Setup CRM Platform
6. Develop Automation System

Create Sales Playbook

- Establish brand identity, unique selling propositions and target customers.
- Create sales goals, key performance indicators (KPIs) and activity metrics.
- Identify key processes, platforms and people involved in the sales funnel.

Draft Sales Messaging

- Write scripts for email, phone, SMS and social media DM outreach.
- Create sales assets for presentations, case studies and pricing/services.
- Develop standard operating procedures (S.O.P.s) for internal/external use.

Generate Prospect Data

- Set up or integrate a lead generation system (tools, APIs, scraping).
- Download contact information for your Ideal Customer Profiles (ICPs).
- Use AI to create research insights for each company and prospect.

Configure Email DNS

- Purchase a new domain or use a sub domain for email outreach.
- Configure DNS records (DMARC, DKIM, SPF) to ensure deliverability.
- Warm up email address of new domain to maintain optimal mailbox health.

Setup CRM Platform

- Select and set up a CRM tool, or integrate with your existing subscription.
- Define categories (accounts, contacts) and configure property structures.
- Integrate email, import contacts and upload files (assets, templates, etc).

Develop Automation System

- Select and set up an outreach automation system or integrate existing.
- Define core channels (email, phone, etc) and configure sequence steps.
- Integrate with CRM and customize tracking and reporting dashboard.

Summary

And there you have it! With these steps you can set up a sales operations system and develop predictable revenue for your organization. Be sure to have an action plan, messaging templates, prospect data, healthy mailbox, CRM platform and automation.
